

I am concerned about the possibility of losing the priority of my local K-LOVE station (Dayton, OH 98.6) to a low power FM station.

K-LOVE has been a source of joy to me and my family since it came on the air.

It has the quality and sound that people have become accustomed to on other format station but has the content that appeals to our family. It is positive and free of offensive comment and behavior that we dislike; consistent with the values my husband and I strive to live by ourselves and instill in our children. From the K-LOVE bumper stickers I see on the many cars in our community, I know that this station is meeting a need that desperately needed to be met in our area; a choice we did not have prior to K-LOVE coming on the air in our community. Not only is the music excellent but the public announcements regarding local community events helps us know where to seek out like mindere entertainment in our area. It also points the way to many social agencies and persons for help in dealing with the chaallenges in our lives. Please do not do a terrible disservice to ours and the many other communities around the country that would be devoid of a wonderful station like K-LOVE if low power FM stations were allowed to have priority over the translators that provide us with K-LOVE.

Respectfully submitted,

Mrs. Karyn A. Tkach
